

## Eastto Semi - Synth Cutting Oil

**INTRODUCTION:** EASTTO SEMI - SYNTH CUTTING OIL is premium quality semi synthetic cutting oil for machining and grinding of ferrous and non - ferrous metal and alloys. It forms a translucent emulsion to provide a clear view of work piece and tools with extended tool life and improved finish of work piece,. It resists bacterial attack to control the emulsion stability with excellent rust and corrosion protections. This semi synthetic coolant is ideal for individual and central sump system with low foaming tendency and dissipates heat faster.

**APPLICATION:**EASTTO SEMI - SYNTH CUTTING OIL is excellent for the machining of all ferrous and non - ferrous metals and the applications include grinding, milling drilling, turning, boring, punching, reaming, sawing, broaching and tapping etc.

**PERFORMANCE LEVEL :** EASTTO SEMI - SYNTH CUTTING OIL is a proprietary product.
